I have reviewed your earlier request for a \$750 contribution towards travel support for Kevin Murphy and Jan Cleveland to attend a conference in Australia. Matching of travel expenses is usually not one of the expenditures that the College will cost-share from its DA/RSP funds and I have not been able to identify an alternate source. Is there a way by which the Department could pick up this cost from DA/RSP funds or other funds? In return, I would be willing to consider a future proposal for matching funds from Psychology in another area.

Sorry that I can't be more supportive regarding this request.
